Footnotes:

Regents Examinations: Sample Regents language examination results should not be reported. These include sample examinations given in American Sign Language, Chinese, Japanese, Polish, Russian, Ukrainian, and Greek.

Component Retests for Regents Examinations: Component retest scores are assigned in ranges (i.e., 0-54, 55-64 and 65-100). SIRS does not accept ranges, therefore the following scores should be used to represent the ranges: 50 for 0-54; 60 for 55-64; and 70 for 65-100.

SED policy states that only students in grade 12 who have failed the English Regents examination twice (but scored within a specified range) may take a component retest. Therefore, if a component retest score is entered for an English component retest for a student who does not have a grade 12 record (see Grade Level data element) during the school year that the assessment was administered, the assessment results will not be reported on the Final Verification Reports or on the school report card.

SED policy also states that only students in grade 11 or grade 12 who have failed a required Mathematics Regents examination twice (but scored within a specified range) may take a component retest. Therefore, if a component retest score is entered for a math component retest for a student who does not have a grade 11 or grade 12 record (see Grade Level data element) during the school year that the assessment was administered, the assessment results will not be reported on the Final Verification Reports or on the school report card.

Career Technical Education (CTE)/Tech Prep: Some - not all - CTE and Tech Prep programs have a Technical Skill assessment associated with them. All CTE and Tech Prep programs that have had their underlying CTE component approved by NYSED for the issuance of a Technical Endorsement on the HS diploma have such an associated assessment. Report all Technical Skill assessment outcomes, whether the underlying CTE component has been "approved" or not. To qualify for the Technical Endorsement a student must successfully complete his/her CTE or Tech Prep program service AND take and pass the Technical Skill assessment that was made part of that CTE/Tech Prep program under the NYSED approval process. As each NYSED "approval" identifies a different specific assessment (some nationally recognized, some locally produced) that must be passed before the issuance of the Technical Endorsement, NYSED does not distinguish between them in SIRS. The 00199 assessment measure code is to be used for all such CTE/Tech Prep assessments. A "P" for pass and an "F" for failed are to be used.
